About this seminar:

A REFRESHING LOOK AT FINANCE FOR EXPORTERS

A unique seminar revealing the secrets of obtaining finance for exports and imports

Delegates will learn tricks of the trade for funding their business by using a variety of funding solutions including finance through non-bank financial institutions. We specialise in providing advice on all aspects of banking and finance. We do not take the traditional approach to assignments, where a hierarchical consulting team complete tasks independently of the client, with junior consultants carrying out most of the work. We prefer to work alongside the client using experienced senior consultants who will ensure that your needs and aspirations are met and the work delivered to your satisfaction.

The seminar will cover:

- Finance for orders – putting in place financial structures for clients.
- Advice on getting the right kind of finance for the task
- Finance against letters of credit
- Funding for exports – advice of the best funding options
- The session will provide a refreshing look at financing your exports and we look forward to meeting you.

Places are limited so book early to avoid missing out.

This seminar is **FREE** to attend and is exclusive to **Members only** (limited to 1 person per company).
